

DIVYA SHIVARAM

TECHNICAL LEAD | SENIOR QA AUTOMATION ENGINEER

☐+91 7760606484 ☐divya.shivaramu@gmail.com ☐[linkedin.com/in/divya-shivaramu](https://www.linkedin.com/in/divya-shivaramu)

SUMMARY

Technical Lead and Senior QA Automation Engineer with 9+ years of proven experience in the IT industry, specializing in **Automation testing**. Proficient in leveraging a wide range of testing tools and frameworks, including **Playwright, TypeScript, Selenium WebDriver, Java, API Testing, CI/CD, and Automation Framework Design**. Proficient in designing, developing, and executing comprehensive test plans and strategies to ensure the delivery of high-quality software products across diverse industries including **Insurance, Health Care, Revenue & Customs, and Pension Scheme**. Strong in **Web Testing**, with hands-on experience on **API**, and **Database Testing**. Committed to continuous learning and staying abreast of the latest advancements in quality assurance.

EXPERIENCE

UL, Technical Lead | Marlabs, Hybrid, India 07/2025 to 6/2026

- Conducted technical reviews of automation scripts, enforced coding standards, and mentored team members on automation best practices and framework design.
- Utilised GitHub Actions for parallel and cross-browser test execution, cutting down overall execution time by 50%
- Collaborated with Product Owners, Business Analysts, Developers, and Architects to review requirements, identify test scenarios, and mitigate potential risks during the development lifecycle.
- Developed and maintained Playwright + TypeScript automation framework, achieving 80% automation coverage and reducing regression testing effort by 60%.

DWP, Senior QA Automation Engineer | Coforge DPA UK, England, UK 06/2023 to 02/2025

- Involved in the development, and maintenance of test automation using **Selenium** and **BDD** framework, incorporating best practices and ensuring high-quality automated test coverage.
- Utilized **Selenium Grid** for parallel and cross-browser test execution, cutting down overall execution time by **50%**
- Performed **API testing** using **Postman**, validating RESTful services and improving backend reliability.
- Integrated automated tests into **Jenkins** CI/CD pipeline, enabling continuous testing and faster feedback in sprints.
- Conducted **database validation** testing using **SQL** queries to ensure data integrity and consistency across the application.

SWIDE / HMRC, Senior QA Automation Engineer | Coforge DPA UK, England, UK 03/2023 to 06/2023

- Designed and maintained a robust suite of automated test cases using **Selenium WebDriver** with **Java**, integrated with **Cucumber** for BDD and **Extent Reports** for rich test reporting.
- Collaborated closely with cross-functional teams in an Agile environment, contributing to sprint planning, backlog grooming, and defect triage sessions.
- Performed code reviews and shared feedback with team members to uphold high standards of test automation quality and maintainability.

SYSTOC / OHM, Senior QA Automation Engineer | Marlabs, Hybrid, India 09/2021 to 12/2022

- Tested **2** enterprise applications SYSTOC(desktop) & OHM(web), ensuring quality and reliability across platforms.
- Raised and tracked **50+** bugs using **JIRA**, maintaining detailed logs for developer resolution and audits.
- Designed and authored **500+** test cases in **Test Rail** covering functional, regression, and smoke testing scenarios.

ROLLS ROYCE, QA Automation Engineer | **Tata Consultancy Services Ltd**, Bangalore, India 08/2017 to 09/2021

- Automated Regression and Functional test suites extensively using **Selenium WebDriver**, played a vital role in **3** production releases.
- Conducted **API testing** using **Postman**, validating the functionality and reliability of backend services.
- Engaged in knowledge-sharing sessions and contributed to the development of **QA best practices** and standards within the organization.
- Involved in **Bug Tracking** using **JIRA** to report, prioritize, and manage defects throughout the testing lifecycle.

NEST, QA Engineer | **Tata Consultancy Services Ltd**, Bangalore, India 08/2016 to 08/2017

- Assisted in development, and execution of automated test scripts using **Selenium web-driver**, **TestNG**, and **Java**.
- Conducted **cross-browser testing** to ensure compatibility across different web browsers, enhancing user experience and application reliability.
- Worked closely with cross-functional teams, including developers, and product managers, to understand requirements and deliver high-quality software.
- Designed and implemented the **Page Object Model (POM)** to create reusable, maintainable, and scalable automated test scripts, enhancing code readability and reducing duplication across test cases.

SKILLS _____

Testing Techniques	Automation testing, Manual Testing, Regression Testing, Smoke Testing, Database, API Testing, Cross-browser Testing, Agile Scrum
Languages	Java, JavaScript, TypeScript, SQL
Cloud/Other Capabilities	CI/CD, Agile methodology, JIRA, GitHub, Jenkins, Git, Code Review, GitHub Actions
Technical Capabilities	Playwright, Selenium WebDriver, TestNG, Cucumber, AutoIT, Maven, Page Object Model (POM), BDD Framework, Automation Framework Design
Soft Skills	Time Management, Problem-solving, Documentation, Leadership, Team Collaboration, Adaptability
AI Skill	ChatGPT, Claude, GitHub Copilot, NotebookLM

EDUCATION _____

Bangalore University, Bachelor of Computer Applications | Bangalore, India. Result: **First class** 06/2013 to 06/2016

Courses: | Java | Networks | Data Structures | Optimization | Algorithms | C | C++ | DBMS |

CERTIFICATE _____

AI TOOLS WORKSHOP CERTIFICATE
